

Transportation Permission Form for Opal School

I _____ parent and/or guardian of _____, do hereby give Grandma's Place child Care permission to transport my child to and/or from Opal School. I understand that the children will be delivered to Opal School personnel at the front door of the building, and be picked up from their teachers in front of the building at the end of the school day. All transportation will be done by center staff in a company vehicle.

Parents are responsible for informing the school and Grandma's Place Child Care of child care arrangements, pickup and care routines/schedules, and especially changes to routines or schedules. **NOTIFICATION OF CHANGES MUST BE SUBMITTED IN WRITING BY PARENTS.** If a child is not at the designated pickup at the appropriate time, we will check with the child's teacher to verify that if the child was in school, we will then make every effort to reach the parent by phone. A child that is not at school at an agreed upon time or schedule for pickup will be charged a \$5.00 "finder's fee" per incident. Keeping us informed of changes in advance is the best way to avoid confusion for the child, school and our drivers, and to avoid a fee.

Any child of 40+ lbs., under 8 years or under 4 foot 9 inches tall is required to use a booster seat in a vehicle. However, Oregon law states that children 40 + lbs, are exempt from needing a booster seat when riding in a 14 + passenger vehicle (no front seat) belted by a lap-only belt.

- The need for a booster seat does not apply to me. My child is at least 40 lbs., is 8 years of age or older or at least 4 foot 9 inches tall and is appropriate for any seat belt system.

- My child is under 40 lbs. and must use a full car seat that can be secured with a lap belt only, as a shoulder belt may not be available.
